INFORMACIÓN

Albion is the only gallery in London to incorporate a major global program that represents leading international artists including those from emerging markets. Their exhibitions provide a world-wide view of social and cultural issues. Albion works with innovative artists, many of whom create large-scale installation pieces which can only be realised outside the gallery's walls. The first gallery in London to commit their entire space to large scale design exhibitions, Albion also leads the emerging trend of the boundaries between art and design becoming indistinguishable.

INFORMACIÓN

Arróniz Arte Contemporáneo comienza trabajando como oficina independiente en 1980, manejando principalmente obra gráfica de un gran número de artistas mexicanos ahora consolidados.

En el 2006 abrimos un nuevo espacio, siendo la única galería en el país especializada en ediciones limitadas y obra sobre papel. Con la inclusión de nuevos jóvenes artistas, manteniendo como nuestra principal labor la internacionalización de trabajos y proyectos, presentamos un programa de exposiciones que incluye creadores consolidados y emergentes que trabajan no sólo con obra sobre papel, sino también con pintura, fotografía, video o instalación, cuyo lenguaje se relaciona con expresiones gráficas.

Paralelo a esto, trabajamos con diferentes talleres de impresión colaborando con artistas de otras galerías en proyectos relacionados a la edición, organizando muestras internacionales.

INFORMACIÓN

Blow de la Barra is a London based commercial art gallery showing the work of international contemporary artists. Blow de la Barra exhibits proposals by artists with an international reputation who have not previously had a solo show in London while creating a new dialogue with the London and international scene. The gallery programme aims to examine the aesthetic issues that affect contemporary culture, including the legacy and influence of conceptual and pop art, and the relationship established between aesthetics, poetics, politics, economy and society. Within the context of London as an international platform, the gallery intends to create new dialogues and to mediate between other cultural and aesthetic forms and proposals that exist beyond those predominant in the contemporary art scene.

INFORMACIÓN

|EDS| GALERÍA is pleased to exhibit its artists as a group show titled Spectacular for the FEMACO international art fair. The presentation is co-organized by the New York-based curator and art critic Raúl Zamudio-Taylor, and he has curated the |EDS| GALERÍA booth as a museum or gallery exhibition than the typical art fair stand. The presentation's title comes from a work by the same name by Emilio Chapela Perez, and Zamudio-Taylor has opted to use it as curatorial foil from which to weave the other works by the gallery's other artists. Chapela's work's full title is Spectacular (but empty) (2008), and for Zamudio-Taylor, it is reminiscent of Guy Debord's important situationist book titled the Society of the Spectacle published in 1967.

INFORMACIÓN

In 2005, the North Frisian Sönke Magnus Müller opened his gallery magnus müller in Berlin-Mitte. Müller has studied art history in Florence, Rome, Paris and Berlin and received his master degree at the Free University Berlin. He gained experience in the art world working as an art critic and curator at various institutions, such as the Berlin Neue Nationalgalerie as well as the Guggenheim Museum in Venice and New York.

The magnus müller gallery focuses on Conceptual Art and an interdisciplinary-based exploration of various mediums. A common interest for space issues and space perception unifies most of the works of the represented artists. The gallery is mainly interested in debuting the work of young emerging, Berlin based artists as well as in presenting internationally reknown artists to the Berlin audience. magnus müller also engages with guest curators to orchestrate group exhibitions consisting of a mix between the gallery artists and invited emerging artists. This combination further encourages and fuels the dynamism of the gallery space and its contents.

INFORMACIÓN

Desde el año 1996, bajo la dirección de Moisés Pérez de Albeniz, esta galería ha venido ofreciendo una doble propuesta dentro del arte contemporáneo: artistas ya consagrados en el panorama nacional e internacional y la promoción y apoyo de artistas más jóvenes, de una clara proyección artística.

Since 1996, under the direction of Moises Perez de Albeniz, the gallery's programming has offered two kinds of exhibitions: those devoted to nationally and internationally established artists, and those promoting and supporting young artists, who are clearly on the verge of a breakthrough.

La Associazione Prometeo se fundó en Lucca en el 2002, desde entonces ha desarrollado una intensa actividad generando exposiciones tanto individuales como colectivas y ha mantenido una estrecha relación con críticos y comisarios con los que se han realizado diversos proyectos de investigación. En el espacio expositivo se han comisionado proyectos trascendentes como las acciones Klassenkampf y Espreado de poliuretano sobre 18 personas de Santiago Sierra o Turn Over de Gianni Motti. En noviembre del 2005 abrió un nuevo espacio en Milán: Prometeogallery di Ida Pisani. Ubicada en la emergente zona de Lambrate, Prometeogallery continúa con su vocación por el arte contemporáneo combinando artistas consolidados como Santiago Sierra, Anibal López (A-1 53167), Regina José Galindo (León de oro 51 Bienal de Venecia) con propuestas de artistas emergentes, poniendo especial atención en la producción artística de regiones periféricas y las posiciones más radicales de la escena artística internacional. En el 2008 abrirá un nuevo espacio de experimentación en la Ciudad de Lucca, donde en 2002 inició su intensa labor.

INFORMACIÓN

Tiene como objetivo la creación de un espacio que facilite el encuentro del arte contemporáneo que se produce en México con públicos diversos, tanto nacional como extranjero. En octubre de 2005 abre sus puertas en el emblemático Edificio Vizcaya, sumándose al ambiente artístico generado en el Centro Histórico de la ciudad. La selección de sus artistas abarca varias generaciones lo que abona las condiciones para que receptores que habitualmente no conviven entre si, se vinculen.

Algunas otras estrategias han sido la organización de exposiciones más allá de su espacio y del tradicional perímetro del cubo blanco, la interrelación con otras maneras de distribuir el objeto artístico y el uso de soportes diversos.

INFORMACIÓN

Samson Projects, establecida en 2004, mezcla los mejores elementos de una galería comercial con la actitud experimental de un espacio de exhibición alternativo

Nosotros representamos un grupo dedicado a la evolución del arte contemporáneo. Ellos son Nicole Cherubini, SunTek Chung, Taylor Davis, Craig Drennen, Jeffrey Gibson, Gabriel Martínez, Rune Olsen y Suzannah Sinclair.

Samson Projects crea y presenta programas que exploran la diversidad de culturas y voces que continuamente forman el arte e ideas hoy.

Para esta edición de MACO, Samson Projects cede la curaduría del booth a Montserrat Albores Gleason. La necesidad de adaptarse a la situación y condición del ambiente local es la idea encima de la contribución a la cultura.

INFORMACIÓN

La Galería Valle Ortí abrió sus puertas por primera vez el 14 de noviembre de 1973 en un local de la calle Avellanas, en pleno centro histórico de Valencia. Este espacio, que cuenta con una sala de exposiciones principal, otra de menor tamaño dedicada a proyecciones de vídeo, un amplio almacén y sótano, sigue siendo el lugar desde donde se plantea este renovado proyecto galerístico más de treinta años después. Nacho Valle, actual director, comenzó su experiencia como galerista en 1989, colaborando con su padre y fundador (Vidal Valle) e iniciando una importante transición conceptual y de programación desde entonces, obligadamente impulsada tras la muerte de Este en septiembre de 2001.

La reforma de la sala, realizada a principios de la temporada 2002-2003, ha sido determinante para ofrecer una nueva visión espacial que vaya acorde con otra de renovación de sus inquietudes y pretensiones artísticas. En este sentido, la Galería Valle Ortí considera fundamental en esta nueva etapa dejarse acompañar por artistas jóvenes que buscan, tal vez hacia una misma dirección desde posiciones distintas, un mismo fin: mostrar las diversas expresiones artísticas que puedan dar una pequeña visión de nuestra sociedad actual, compleja, multicultural y polivalente.

INFORMACIÓN

Inventio vs Imitatio was always the decisive aspect in developing the gallery's program. Since 1992, when Ulrich Voges founded his first gallery it was his search for what was new and surprising to the eye in any media that impelled him forward and lead to the present results. His main focus was on the promotion and long-term collaboration with artists of his own generation and especially close link to the local Städel Art School resulted in lasting cooperation with artists such as Winter/Hoebert, Martin Liebscher, Manfred Peckl, Rainer Neumier or most recently Adrian Williams, who all are now operating on broad international platform.

In the last few years, new collaborations with Suzannah Sinclair (B), Betsabeé, Romero (Mex), Felix Gmelin (S) and Monique van Genderen (USA) are taking the gallery profile to a more international level, while participation at art fairs like ARCO, FIAC, MACO, art forum Berlin, dc, Fine Art Fair Frankfurt and the VOLTashow are adding to that enduring quest.
